

MAJOR ANDREW "DREW" ANDREEKO

BRANCH MANAGER - BETHLEHEM, PENNSYLVANIA

Major Andreeko has rejoined the Medina team after serving in Iraq with the Army 673rd Facilities Engineering Detachment (FED). In Iraq, Drew was responsible for designing and managing critical construction projects throughout Iraq including bridge and roadway projects to ensure mobility of our troops, Force Protection projects to safeguard U.S. personnel, Base Camp Construction and Improvement Projects to improve the operational readiness of the Armed Forces and Iraqi Nation Building projects to restore essential services and earn the trust and confidence of the Iraqi people.

"My civilian work experience, ranging from commercial to industrial prepared me immensely for the engineering challenges that I faced in Iraq." Drew Andreeko

With over 16 years of experience, Major Andreeko will be heading up our Bethlehem, PA branch. He will be responsible for supervising a staff of engineers and surveyors in the execution of surveying, site development, and transportation projects throughout eastern Pennsylvania. Additionally, Major Andreeko will be assisting our Director of Federal Programs, Wassim Y. Nader, PE, in the Pennsylvania marketplace. Through our existing contacts with FEMA Region III and USACE Philadelphia District, Major Andreeko will be entrusted to assist in the task orders and expand our teaming with other Federal agencies and private operations.
