

# BRIAN K. STROUT, PE

## DIRECTOR OF OPERATIONS

As Director of Operations, Mr. Strout is responsible for company wide operations of each of Medina's seven regional offices. Mr. Strout holds a BS degree in Civil Engineering from the University of Rhode Island and has completed post-graduate studies at NJIT, graduating with a Masters in Engineering Management in 2004. Mr. Strout is an active member of ASCE, AREMA and AACE and holds professional registrations in the states of New Jersey, New York and Pennsylvania. Mr. Strout has an extensive background in project control services providing him with an eye towards the successful and efficient management and control of individual projects, programs and business operations.

Over the past 20 years, Mr. Strout has served both public and private sectors of the transportation industry in many varied project, program and construction management roles, predominantly in the rail/transit market. His broad range of experience has included the management of bridge inspection and capital construction operations for NJ Transit, the management and planning of force account operations for the MTA's East Side Access project in Manhattan and numerous project/program roles with a focus on project control services for many local and national clients including New York City Transit, Long Island Railroad, Metro-North Railroad, NJ Transit, Amtrak, CSXT, Chicago Transit Authority, NJ Turnpike Authority and Departments of Transportation in New Jersey, Florida, Minnesota and Wisconsin.

He is active in community recreation where he serves as a board member on the North Warren United Travel Soccer Club and as an assistant coach for the North Warren Thunder.
