

Building on Solid Expertise

EDWIN REIMON, PE

BRANCH MANAGER - NEWARK, NEW JERSEY

Mr. Reimon has over 26 years of experience in the civil/transportation engineering field. His experience also includes management of feasibility studies, concepts and final design of major transportation facilities in New Jersey and New York for the NJ Department of Transportation, NJ Turnpike Authority, NJ Transit and The Port Authority of NY & NJ.

Mr. Reimon has successfully managed the design of health care facilities, residential and commercial development in New Jersey for private developers and government agencies. His experience also includes the management of the Capital Improvement Program for a major city as part of their Division of Engineering.

At this time, Mr. Reimon is Planning Board Engineer for Hudson County and the Town of Guttenberg, NJ. He is a certified municipal engineer and professional engineer in New Jersey and Delaware.
