

Building on Solid Expertise

STEVEN PANAYI, PE

DEPARTMENT MANAGER - BRIDGE DESIGN

Mr. Panayi has over 16 years total structural engineering experience in design and inspection. His experience includes conceptual and final design of proposed structures, inspection and evaluation of existing structures and contract specification/construction cost estimates for highway and railroad bridge projects, marine terminals and buildings.

Mr. Panayi has managed projects on many of the area's largest transportation networks including NJ Transit, Garden State Parkway, NJ Turnpike, and Port Authority of NY&NJ facilities, as well as several county roadway projects. Some of his specific project management experience includes Washington Street Bridge Rehabilitation in Parsippany and Boonton, NJ, Linden Avenue Bridge Replacement in Verona, NJ, and Ridgewood Road Bridge Replacement in Millburn, NJ.
